1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	Yes
Estimated percentage of the work influenced by AI	24%
Did you attach evidence of AI use where applicable?	Yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
OpenAI Codex	Assisted with implementation guidance, debugging neural network code, understanding tensor and matrix dimensions, and clarifying PyTorch-related implementation details.	Asked implementation questions regarding forward propagation, backpropagation, parameter updates, tensor shapes, learning-rate experiments, and plotting results.	Neural network implementation, debugging, training loop, learning-rate experiments, PyTorch implementation clarification.	I implemented the suggested changes, reran the code, tested different learning rates, checked tensor dimensions and loss curves, and modified the implementation until it behaved as expected.
ChatGPT	Used for conceptual explanations of gradient descent, chain rule, activation	Asked conceptual questions about neural networks, derivatives, activation	Understanding of the theory behind the implementation and	Derived the gradients independently, implemented the algorithms myself, tested

	functions, backpropagation, learning rates, linear versus nonlinear models, and interpretation of experimental results.	functions, plotting, loss curves, and mathematical explanations of stacked linear layers.	interpretation of results.	the implementation, compared outputs with expected behavior, and interpreted the resulting plots.

3. Attachment of AI Output Evidence
